

Call for Trainees in the Agency for the Cooperation of Energy Regulators (ACER)

REFERENCE: ACER/TRAINEE/2015/SPRING

1. WE ARE

The Agency for the Cooperation of Energy Regulators (hereinafter referred to as ACER), established by Regulation (EC) No 713/2009¹, has a central role in the liberalisation of European energy markets.

The purpose of the Agency is to assist National Regulatory Authorities in exercising, at the Union level, the regulatory tasks that they perform in the Member States and, where necessary, to coordinate their action.

ACER will in particular:

- (a) complement and coordinate the work of National Regulatory Authorities;
- (b) participate in the creation of European network rules;
- (c) take, under certain conditions, binding individual decisions on terms and conditions for access and operational security for cross border infrastructure;
- (d) give advice on electricity and natural gas related issues to the European institutions;
- (e) monitor the internal markets in electricity and natural gas and report on its findings.

Regulation (EU) No 1227/2011² on Wholesale Energy Market Integrity and Transparency (REMIT) has introduced new rules prohibiting abusive practices affecting wholesale energy markets. According to REMIT, ACER has to collect both transactional and fundamental data necessary to monitoring of wholesale energy markets, in close collaboration with national regulatory authorities (NRAs), in order to detect and deter market abuse.

Regulation (EU) No 347/2013 on guidelines for trans-European energy infrastructure has introduced a new enhanced framework for the development of European energy networks and has assigned the Agency additional tasks in this area.

ACER currently has a staff of more than 80 people and an annual budget of €10.8 million in 2014. ACER internal structure currently comprises four Departments (Electricity, Gas, Market Monitoring and Administration) and the Director's Office.

ACER headquarters are located in Ljubljana.
