

# Supply Network Operations

## Logistics & Distribution

### Internships in Switzerland

Procter & Gamble has its headquarter in Geneva for Europe, Middle East, India and Africa Regions. The 2'600 employees coming from 73 different countries represent the diversity of consumers we serve all around the world.

We offer exciting, challenging paid internships to outstanding students. You will be a member of the Supply Network Operations (SNO) organization, which is one of the disciplines of our Product Supply division. You will be working on one or several projects in the area of Supply Network Design, Inventory Management or Transportation & Warehousing of supply chain management. Other disciplines are Manufacturing, Quality Assurance or Purchasing. Product Supply encompasses more than 70,000 employees, more than 130 plants and 40 customization centers.

Other areas of work are Integrated Business Planning (IBP), Customer Service Operations (CSO), Distribution Requirements Planning (DRP) or Customization Planning and Execution (CP&E).

#### Summary of Job Responsibilities:

With the support of your manager, daily training and coaching, you will manage your project in a specific area as supply chain planning, logistics projects with customers or managing P&G warehousing and transportation operations. You will have your own responsibilities from your first day on the job and work on projects important to the success of our supply chain.
