Selecta one is a world-leader in breeding, producing and marketing of vegetatively propagated ornamental plants. Our breeding activities include bedding and balcony plants, pot plants, perennials and cut flowers. With eleven breeding, production and distribution sites the corporate group serves all relevant markets worldwide.

For our production site in **Tenerife/Spain** we are currently looking for a

Grower (m/f/x)
for the production of Elite (SEE) mother plants

Your tasks:
- Implementation of cultivation tasks for Elite mother plants
- Further development of a successful integrated Pest Management system
- Monitoring and adjusting climate and fertilization requirements
- Instruction of support staff
- Monitoring and maintenance of the greenhouse facilities
- Documentation of all relevant cultivation measures and plant planning

Your profile:
- Successfully completed educational training in the horticultural field
- Enjoy growing ornamental plants with a keen eye on detail
- Working experience in the production of ornamental plants is an advantage
- Good command of written and spoken English, Spanish skills are helpful but not mandatory
- High quality awareness and sense of responsibility
- Committed personality with passion and sensitivity for plants

Your benefits:
- Participation in a small, international and dynamic team which is dedicated to optimizing the quality and the output of starting material for other growers
- Good international development opportunities within a successful, family-owned company group
- Further training possibilities where desired
- Individual support for relocation and accommodation
- Appropriate compensation and language trainings
