

## Clinical Data Management Associates

Do you want to be where data meets technology?

Do you want to take part in the development of the next generation of medications?

Do you want to work in a multicultural global environment?

You are not afraid of challenges and you are a real team player.

If you answer YES to the above, a career in Clinical Data Management might be a good fit for you. Experience is welcome but not mandatory.

Our Clinical Data Management team in Thessaloniki will ensure you get the correct support and mentoring to launch and grow your career.

You will have the opportunity to kick-start a career in the rapidly developing market of clinical trials.

**We offer you** the chance to join a global team, in a promising and employee-centered environment. Excellent working conditions, flexible workplace, competitive salary and bonus system.

### Required Qualifications:

- Higher Education Degree in statistics, life sciences, pharmacy, mathematics or IT related field or equivalent through experience
- Experience with clinical trials is a plus
- Excellent command of English language, oral and written
- Strong analytical, problem solving and critical thinking skills.
- Desire for self-motivation and continuous development
- Organization, creativity, attention to detail, analytical and presentation skills

The candidate, ideally, should be based in Thessaloniki, Greece but a remote location could be discussed.

Please send your CV in English, with a short cover letter to [y.litos@accelsiors.com](mailto:y.litos@accelsiors.com)

### GDPR declaration

By sending you CV, you consent to the processing of your personal data.

Your CV will be included in Accelsiors' database to be considered for future roles.

## **About Accelsiors**

*Accelsiors is a leading international Clinical Research Organization with a strong focus on specific therapeutic expertise, study process management and customer satisfaction. Accelsiors management were amongst the first to develop Biosimilar / Biologics therapies through the clinic to registration and this has become one of the key areas of business for the Company in addition to Biotech and pharma focus.*

*In addition our therapeutic focus is in Endocrinology, Neuroinflammatory, Renal, Oncology, Pulmonary, Infectious Disease, Rare Disease, Orphan and Pediatric disorders. The Company intends to build out other therapeutic business units in its clinical group over time. Find more at [www.accelsiors.com](http://www.accelsiors.com)*
