

qmetric | HR & Career Solutions is currently recruiting, on behalf of [codebender](#), the position of

Full Stack Web Developer (Patras) **(Job opening ID: FSWD1)**

The company

[Codebender](#) is a rapidly growing and [well-funded](#) Greek startup. Its creative team aims to change the way software and hardware is developed, advance the maker movement and bring more hackers/inventors/artists/crazy scientists to the world!

The position

We are looking for a full time, permanent, full stack web developer who writes clean, testable code and can iterate fast. The successful candidate will be working on codebender's back - end and front-facing part (with an emphasis on the back-end), using HTML, CSS, Javascript (&jQuery). He/she must be familiar with PHP or other web-scripting languages such as Python, Ruby, etc as well as with the tools of the trade. He/she will be asked to develop high-standard code, which will be used every day by thousands of people around the world and to have a solutions-focused attitude to address everyday challenges.

Your profile

In order for you to be able to successfully carry out the duties of the job, you should possess the following:

- Good knowledge of HTML, CSS, Javascript (including jQuery)
- Basic knowledge of TDD
- Good knowledge of PHP or other web-scripting languages (Python, Ruby)
- Know the tools of the trade (Git & Github, IRC)
- Live in Patras, or are willing to relocate, in order to work in the same space as the rest of the team

Significant bonus points will be given to applicants who:

- Know Symfony 2 or other MVC frameworks (Django, Rails)
- Are Makers (Know about Arduino, build things like quadcopters, 3d printers, or potato launchers in their spare time)
- Have 3+ years of experience in software development
- Have strong experience in PHP
- Have experience building APIs, web applications, or services

Our Client offers

In case you are selected for the position of Full stack web developer, you will have access to the following:

- Competitive remuneration package
- Stock option plan
- Social security (your social security contributions are covered by the company)
- Lunch and caffeine is on the house (for the employees based in Patras HQ)
- Training and continuous development opportunities (attendance expenses paid for training events & workshops by the company)
- Participation in monthly team building activities & events (wine tasting and winery visits, paintball etc.)
- Excellent opportunities for advancement & career development
- A dynamic work environment.

Are you interested?

Are you a full stack web developer who understands the entire spectrum of development, likes responding to challenges, has a higher view of things and likes making the lives of others easier? Are you thrilled by the prospect of advancing your already successful career and developing professionally in an innovative, [well-funded](#) and fast-growing company?

If yes, please click [here](#) in order to submit your application.

The selection process

qmetric applies a demanding selection process, in order to ensure its fairness. Shortlisted candidates will be assessed with the use of Competency Based Interviews, personality and work sample tests.

Our company treats each application with strict confidence
