Location: Thessaloniki

SEEMS PC, a Greek company focused on IoT solutions development employing Artificial Intelligence techniques, is looking for a highly-motivated junior Front-End Developer. As a Front-End Developer, you will join our software development team to implement challenging R&D projects.

Responsibilities

- Developing and maintaining Web Apps and Mobile Apps
- Unit testing, and debugging with focus on usability and performance
- Cooperating with the development team
- Writing clean, maintainable, efficient and reusable code and libraries
- Providing optimization ideas to achieve speed and scalability
- Providing solutions to real-world problems
- Proposing ideas for additional products, techniques, tools and services
- Troubleshooting and supporting existing products and infrastructure

Requirements

- BSc / MSc in Information/Computer Science, Software Engineering or equivalent
- Programming abilities in OOP (Java or/and .NET)
- Familiarity with HTML, CSS and Bootstrap
- Familiarity with JavaScript
- Familiarity with NoSQL or SQL databases
- Familiarity with code versioning tools, such as Git
- Familiarity with UI/UX Technologies
- Familiarity with Blazor and .NET MAUI would be a plus
- Experience in developing software applications (desktop, mobile, web) would be a plus
- Knowledge of cloud computing (AWS, Azure, etc.) would be a plus
- Knowledge of Entity Framework would be a plus
- Excellent use of English language
- Completed military obligations (for male candidates)

Benefits

- Working environment which inspires team spirit and cooperation
- Enthusiastic and open-minded multidisciplinary team
- Work/life balance
- State-of-the-art tools, libraries and technologies
- Cooperation with the greatest R&D organizations and institutions
- Training opportunities for continuous personal improvement and career development.

If you strive for innovation and want to work with state-of-the-art technologies join us! Send us your detailed CV, at hr@seems.gr, quoting reference: (RD007).
