Electrical/Automation Engineer - RD009
Location: Thessaloniki

SEEMS PC, a Greek company focused on IoT solutions development employing Artificial Intelligence techniques, is looking for a highly-motivated Electrical/Automation Engineer to join our team.

Responsibilities
- Performing site surveys to examine and record the customer's request.
- Participate in the installation, configuration, integration, and maintenance of the company's products.
- Programming and testing automation equipment.
- Unit testing and debugging with focus on usability and performance.
- Visiting customers to provide technical support.
- Cooperating with the technical team.
- Writing clean, maintainable, efficient documentation.
- Providing optimization ideas to achieve speed and scalability.
- Providing solution to real-world problems.
- Proposing ideas for additional products, techniques, tools and services.
- Troubleshooting and supporting existing products and infrastructure.

Requirements
- Bachelor's Degree in electrical engineering, automation engineering or similar field.
- Experience in automation applications with PLC, DCS and SCADA systems.
- Knowledge of digital and analog electronics.
- Good use of English language.
- Completed military obligations (for male candidates).
- Car driver's license.
- Ability to travel.

Considered as a plus:
- Experience in electronic hardware design (KiCAD, Eagle, Altium).

Benefits
- Working environment which inspires team spirit and cooperation
- Enthusiastic and open-minded multidisciplinary team
- State-of-the-art tools, libraries and technologies
- Cooperation with the greatest R&D organizations and institutions
- Training opportunities for continuous personal improvement

If you strive for innovation and want to work with state-of-the-art technologies join us! Send us your detailed CV, at hr@seems.gr, quoting reference: (RD009).
