- Developing and maintaining Web Apps and Mobile Apps
- Unit testing, and debugging with focus on usability and performance
- Cooperating with the development team
- Writing clean, maintainable, efficient and reusable code and libraries
- Providing optimization ideas to achieve speed and scalability
- Providing solutions to real-world problems
- Proposing ideas for additional products, techniques, tools and services
- Troubleshooting and supporting existing products and infrastructure

Requirements

- BSc / MSc in Information/Computer Science, Software Engineering or equivalent
- 3+ years' experience in developing software applications (desktop/mobile/web)
- Experience in Blazor and .NET MAUI
- Strong programming abilities in OOP (Java or/and .NET)
- Experience in HTML, CSS and Bootstrap
- Experience in JavaScript
- Experience in NoSQL or SQL databases
- Knowledge of code versioning tools, such as Git
- Experience in UI/UX Technologies
- Experience in cloud computing (AWS, Azure, etc.) would be a plus
- Experience in Entity Framework would be a plus
- Excellent use of English language
- Completed military obligations (for male candidates)

Benefits

- Working environment which inspires team spirit and cooperation
- Enthusiastic and open-minded multidisciplinary team
- Work/life balance
- State-of-the-art tools, libraries and technologies
- Cooperation with the greatest R&D organizations and institutions
- Training opportunities for continuous personal improvement and career development.

If you strive for innovation and want to work with state-of-the-art technologies join us! Send us your detailed CV, at hr@seems.gr, quoting reference: (RD011).
