Senior C# .NET Developers

Who we are

e-Travel is one of the top 10 online travel agencies in the world in selling flight tickets and one of the most successful start-up ventures in Greece. Launched in 2007 we have reached a gross sales volume of EUR 450 Million. We have a global presence with customers in over 200 countries and we provide multiple language and currency options. Our Websites are pamediakopes.gr, mytrip.com, trip.ru, trip.bg, trip.ua, trip.kz, trip.ae, avion.ro, airtickets24.com, fantasticgreece.com.

Our diverse & dynamically growing team of 170 people would be happy to welcome more innovative and enthusiastic people ready to join us in our journey to the top! We enjoy challenges, we have no dress code, we party often and we even occasionally feed the trolls.

Position Summary

We are looking for passionate Senior C# developers to join the team responsible for our products, actively participate in the development of new projects and support our current systems. The successful candidate must be knowledgeable in the field, eager to work in a fast-paced environment & ready to actively contribute to the teams development.

Requirements

- A passionate software developer with at least five (5) years of working experience.
- You have at least three (3) years of experience in building commercial .NET applications with C#.
- You feel right at home with Server-side development, OOP, multi-tier architecture, Windows Server, IIS, Visual Studio, but also know your way around Unix/Linux environments.
- You are proficient in Web Services (REST and RPC) and SQL databases.
- Under all circumstances your code is well-tested and well-documented.
- You also know design patterns, conventions and development testing, and how to apply them.
- You pay strong attention to detail and take pride in your work. You equally treasure sharing your findings with the team and listening to their discoveries.
- While your technical ability is solid, you are constantly learning. You read technical blogs and books and try to stay on top of the latest and greatest.
- You have a positive mindset and are motivated by challenging projects; new and existing. Rest assured that we have a lot going on around here.
- Above all, you are a developer who deeply values being a member of a team. You are not a rogue ninja, rather you prefer to be a team player that shares methodologies and standards to help the developer sitting next to you deliver quality work on time.
- You get <u>extra credit</u> for meddling with Continuous Integration, Continuous Deployment, Unit/Integration testing, i18n, NoSql databases, O/R mapping, ServiceStack, ASP.NET MVC, powershell scripting and AWS.
- Finally, you have good communication skills in English, you have a legal permit to work in Greece, and you have any military obligations fulfilled.

We offer

- The opportunity to work in a company with a unique culture & creative people.
- The chance to grow professionally & personally in one of the top e- commerce companies in Greece.
- Attractive remuneration package.
- Complimentary private health insurance.
- Yoga lessons and afternoon ping pong matches to help you take the edge off.
