qmetric | HR & Career Solutions is currently recruiting, on behalf of **Epignosis LLC**, the position of

UI/UX Designer
(Job opening ID: UIUX3)

The company

Epignosis LLC is a rapidly growing and profitable technology company with offices in US, UK and Greece. It is a technology focused company with an established line of learning management tools that can cover a variety of customer needs. It builds products to solve training problems of growing companies. Its portfolio includes **eFront**, an award winning LMS for enterprises and **TalentLMS**, a lean, cloud LMS for everyone that needs a really fast and simple way to train online. They are also working on an exciting new mobile product, named **Snappico**, that combines aspects of microlearning, infographics and gamification. You can find more info about the company and its values **here**.

The position

The successful candidate will be based in Athens and his or her main duties will include:

- Creating high quality design assets including wireframes, comps and prototypes.
- Ensuring that UX research and usability are included in the delivery process.
- Taking projects from conception to visual comps while working closely with front-end developers and product managers.
- Helping evolve style guides, templates and design standards.

Your profile

In order for you to be able to successfully carry out the duties of the job, you should possess the following:

- Demonstrable UI/UX skills with a strong portfolio
- Strong grasp of typography, layout, color and use of images.
- Mastery of Photoshop and Indesign. Working experience with Invision is a plus.
- Thorough competence in web and mobile technologies along with interaction design principles.
- Experience with front-end web development technologies, including HTML, CSS and JavaScript.
- Desire to work within an evolving agile development process.
- Strong interpersonal, problem solving and decision making skills.
- Excellent verbal and written communication skills.

- Deep understanding of the principles of user-centered design and development.
