

[qmetric | HR & Career Solutions](#) is currently recruiting, on behalf of [ZuluTrade](#), the position of

Web Engineer (ASP.NET) **(Job opening ID: ASP1)**

The company

[ZuluTrade](#) was founded in 2007 by Leon Yohai from an idea that would make forex trading accessible and easy to the common user. This idea led to a unique online and mobile social auto-trading platform with a global reach and more than half a million users. Nowadays, ZuluTrade is considered as the world leader in online and mobile Forex autotrading platforms.

ZuluTrade welcomes creative, motivated individuals to join its team at offices located in a prominent waterfront location at the port of Piraeus. Their collaborative workplace offers exciting and diverse opportunities to learn, grow professionally, and make a real contribution to the success of an industry leader in the fast-growing world of the Forex market.

Facts & figures:

- Innovative platform, providing financial services & social networking
- 500+ million transactions per year
- 90+ employees
- High-growing rates and prospects
- Fresh .com philosophy.

The position

The successful candidate will join a team of seasoned developers and contribute to the performance optimization of [ZuluTrade platforms](#).

Working at the heart of the Forex industry, you will be invited to apply your advanced skills in ASP.NET, C# and JavaScript with a main objective to analyze complex business requirements and find bottlenecks slowing down the platforms' performance, as well as to design and deliver creative and long-lasting solutions with a vast commercial impact.

Along with everyone else in the company your colleagues at the Frontend Department will support you not only in quickly becoming productive on the technical field, but also in quickly capturing our business model. The more hands on and trusted you become, the more opportunities you will have to get involved into challenging projects.

Your profile

To succeed in this role, you should consider yourself highly responsible, committed and focused; a practical mind that enjoys solving complex problems. You should be able to work in fast-paced environment both independently and in a team, delivering what you promise, while also having fun and enjoying what you do. The following qualifications as necessary for this role:

- Fluency in ASP.NET, C#, JavaScript, jQuery
- Advance skills in HTML5, CSS3
- Familiarity with REST APIs & HTTP performance/caching
- Previous working experience in Finance and/or Trading industries is highly desired
- Any experience with Ember.js, Backbone.js or Angular.js, as well as with Bootstrap framework will be considered an additional asset
- Fluency in both English and Greek languages (verbal and written).

Our Client offers

In case you are selected for the position of Web Engineer (ASP.NET), you will have access to the following:

- Competitive salary, directly dependent on candidate's profile and experience
- Company health insurance
- Remarkable working space at central location of Piraeus including facilities (restaurant, game room, parking space, etc)
- Friendly environment comprising young, enthusiastic, multi-national staff.

Are you interested?

Are you a passionate Web Engineer who enjoys solving complex problems? Do you take pride in your ASP.NET, C# and JavaScript skills? Are you thrilled by the prospect of advancing your already successful career and developing professionally in an innovative and **fast-growing company**?

If yes, please click [here](#) in order to submit your application.

Our company treats each application with strict confidence
