

MSD IS LOOKING TO HIRE A CVM SPECIALIST IN CHANIA

Cardiovascular & Metabolic Diseases Specialist (CVM Specialist)

Our Medical Representative Teams play a key role in the company's relations with its customers. Their primary responsibility is to engage our customers in action that will improve patient outcomes. They will develop a professional dialogue to understand the customer's needs in depth and to offer appropriate MSD solutions.

The position which is currently open, Cardiovascular & Metabolic Diseases Specialist, is in the Primary Care Business Unit, based in Chania (Crete). The successful candidate will report directly to a Regional Sales Manager.

MSD has a long-standing commitment in Cardiometabolic diseases, having introduced into the market the first statin (1987) and the first molecule of a new innovative therapy in diabetes (2006).

MSD currently is a global leader in Cardiometabolic diseases, with innovative products in the market as well as a consistent portfolio of pipeline products. Further development of the Primary Care business is a top priority for the organisation, both globally and locally.

Candidate Profile

- Bachelor's degree, preferably in Life Sciences
- At least 4 years of experience in the Pharmaceutical sector with a multinational company
- A postgraduate degree or MBA will be considered an asset
- A demonstrated track record of performance excellence in meeting targets and objectives
- Enterprising, ambitious, engaging
- Driven to succeed
- Ability to identify opportunities
- Ability to use computers with ease
- Strong command of English.

If you are interested, kindly send your application by February 13th 2015, including a c.v. in English, to the following address: contact@msd.gr
