## Headline Athens is **NOT** looking for an advertising **Account Manager**.

But for a talented individual who:

- Seeks to provide clients with answers across BTL, Events and Digital platforms and even stretch beyond traditional advertising solutions.
- Has a natural excitement for new technology, bleeding edge applications, and a positive attitude towards solving real world challenges.
- Has the ability to find solutions and deliver results within a rapid changing, entrepreneurial-driven culture.
- Is able to work independently, combine effective time management skills with the ability to manage numerous tasks simultaneously.
- Is a complex problem solver responsible for producing measurable results on a very short fast moving runway.
- Is kind, happy, positive and does not let his ego run the show but enjoys establishing collaborative relationships with peers.

If the above sounds like you, go **Ahead**.
