

# VITALISE Summer School 2022

The VITALISE Summer School 2022 is taking place on 6 & 7 July in Greece to support researchers and Living Lab beginners to apply the Living Lab methodology and tools in their research studies.

## 2 About the Summer School

The VITALISE Summer School aims to provide effective training to researchers worldwide, both on the implementation of the Living Lab methodology in their studies, as well as the involvement of Living Lab Research Infrastructures and their services in Health and Wellbeing research studies.

The participants will also access the VITALISE ICT tools and e-infrastructure to collaborate on scientific research with other Living Labs recognized and labelled by the European Network of Living Labs.

## 4 Registrations & further information

The participation to VITALISE Summer School is free of charge for all the participants enrolled. The selection of the applicants will take place in a first come first served format. The accommodation, travel and excursion expenses are not covered by VITALISE project.

Registrations will close on 6 June 2022. However, if we reach the number of 30 participants, we will close the registrations earlier, so please enroll soon.

Interested participants can request further information to [leidyenriquez@enoll.org](mailto:leidyenriquez@enoll.org).

## 1 General Information

- **Date:** 6 and 7 July 2022
- **Location:** Marathon (Athens Region, Greece)
- **Venue:** Golden Coast Hotel
- **Target audience:** Researchers and living lab beginners interested in applying the Living Lab methodology and tools in their studies and research.
- **Available spots:** 30
- **Registration deadline:** 6 June

## 3 What to expect

The VITALISE Summer School will include:

- 5 hours of expert lectures
- 5 hours of hands-on workshops to improve your research
- 1-hour inspirational interaction with representatives of projects using the Living Lab methodology
- All materials and equipment needed for the course
- Catering (complementary lunch and coffee breaks)
- A Social Programme & organisation of excursions

# VITALISE Summer School 2022

## Agenda for Day 1 (6 July 2022)

Living Labs methods & tools for researchers

09:00 -  
10:00

### Evdokimos Konstantinidis Francesca Spagnoli

ENoLL - European Network of Living Labs

- Welcome and objectives
- Living Labs basics, benefits and challenges

1

European  
Network of  
Living Labs

10:00 -  
11:00

### Despoina Petsani

AUTH - Aristotle University of Thessaloniki

- How researchers can be involved and use Living Labs in their daily job: case studies

2

11:00 -  
12:00

### Session moderated by Leidy Enriquez

ENoLL - European Network of Living Labs

- Tour de table: get to know each other

3

European  
Network of  
Living Labs

12:00 -  
13:00

### Teemu Santonen

LAUREA University of Applied Sciences

- Living Labs services for researchers applied to case studies

4

LAU  
REA

13:00 -  
14:00

### Lunch Break

5

14:00 -  
16:00

### Session moderated by Teemu Santonen

LAUREA University of Applied Sciences

- Hands on exercise on selected methods & services for small research design and peer to peer learning

6

LAU  
REA

16:00

### Excursion to the Acropolis Museum and dinner (optional)

7

# VITALISE Summer School 2022

## Agenda for Day 2 (7 July 2022)

Co-creating with Living Labs to improve your research

10:00 -  
11:00

### Alexandra Anagnostopoulou

AUTH - Aristotle University of Thessaloniki

- IPRs and owners of the data within Living Labs

1

11:00 -  
12:00

### Beatriz Merino

UPM - Universidad Politecnica de Madrid

- Experimentation & co-creation in a real-life environment

2

POLITÉCNICA

12:00 -  
13:00

### Eva Kehayia

McGill University

- How to improve your research through Living Labs

3

13:00 -  
14:00

### Lunch Break

4

14:00 -  
15:00

### Session moderated by Beatriz Merino

UPM - Universidad Politecnica de Madrid

- Hands on exercise: co-creation session on your selected research cases

5

POLITÉCNICA

15:00 -  
16:00

Inspirational session with representatives from **LifeChamps** and other research projects where Living Labs were included.

6

16:00 -  
17:00

### Joint SALL & VITALISE Summer School Workshop

7

Farewell Dinner

8
