The **Master's Program in Human Resource Management of the University of Cyprus** is an innovative program that has an established network of HRM professionals in Cyprus, designed to help you advance your career through academic courses and professional workshops.

Why the MSc in HRM?

"Through the lectures offered, the program provides the academic knowledge and background for specialization in human resource management. At the same time, through the workshops, it prepares HR professionals with the state-of-the-art practical tools to better manage the human resources of their respective organizations. Human Resource Management is an essential component in the competitiveness, efficiency and viability of any organization."
