

**AVAILABLE POSITIONS for PH.D. STUDENTS and POSTDOCTORAL RESEARCHERS
AT THE DEPARTMENT OF INFORMATICS, ATHENS UNIVERSITY OF ECONOMICS AND BUSINESS**

This is a call for Expression of Interest for **1-2 positions for Ph.D. students and 1 position for postdoctoral researcher** in the **Department of Informatics of the Athens University of Economics and Business (AUEB)**, under the supervision of **Prof. Iordanis Koutsopoulos** (https://scholar.google.com/citations?user=Bq_GqylAAAAJ&hl=en) with possibility of funding through research projects. The areas of interest are:

- Modern AI and Machine Learning techniques for networks and the Internet of Things
- Mobile Edge computing and edge analytics
- Implementation of Machine Learning algorithm in hardware

If interested, please declare expression of interest through email to jordan@aubg.gr with subject «Expression of Interest for positions in AUEB» until **28/2/22** with their CV. Only emails of candidates that fulfil the following qualifications will be answered.

Necessary qualifications for Ph.D. student positions:

- **Age: up to 27 y.o.**
- **Bachelor's:** Electrical and Computer Engineering, Mechanical Engineering, Informatics, Computer Science, Physics, or another relevant field, with G.P.A > 7.5.
- Mathematical background and strong knowledge in at least 2 of the following areas: Mathematical optimization, (Wireless) networks, Machine Learning, Algorithms.
- Very good knowledge of English.
- Very good background on programming (C/C++, Python, Java).
- 1-2 Recommendation letters (will be requested before admittance).
- Priority will be given to candidates that can be on full-time mode.
- **Master's** in a relevant field or prior work experience in a relevant field in a company or participation in European/National programs will be considered a plus.
- Military obligations: fulfilled or postponed up to 2025.

Necessary qualifications for Postdoctoral Researcher positions:

- Age: up to **30 y.o.**
- **Ph.D.** in Electrical and Computer Engineering, Informatics, or Computer Science, or another relevant field.
- Scientific publications on top scientific journals/magazines and conferences (IEEE, ACM).
- Very good knowledge of English.
- 1-2 Recommendation letters (will be requested before admittance).
- Prior experience of participation in European/National research programs/projects will be considered a plus. Also, experience in writing/preparing/editing research proposals will be considered a plus.
- Priority will be given to candidates that can be on full-time mode.
